WORK EXPERIENCE

Web Developer   Jan. 2020 – Present
Freelancer
- I help small businesses build their brand and online presence.
- I collaborate with designers and work with a team on large projects.
- I help my clients save money by making clean, reusable and maintainable code.
- I breathe new life into old websites.
- I guarantee that everyone can access my product, regardless of their disability, always valuing accessibility.

Computer Service Technician   Jan. 2014 – Jan. 2020
Freelancer
Maceio, AL
- Provided security services and maintenance of networks and computers, ensuring the functionality of the service.
- I've helped companies save money by automating tasks that were once manual.
- Installed, configured and maintained Debian Linux servers.
- Answered "emergency calls" from companies to resolve major network bugs and deal with malware.
